

Link to access GoogleSheet for determining the permeability of young ocean crust on eastern flank of Juan de Fuca Ridge, from cross-hole pressure perturbation:

https://docs.google.com/spreadsheets/d/1JSnmsZbQNvfFPryLSr7jFTEHFBEEDnGutZswdSrx_gM/copy?usp=sharing

When you place this link in a browser, you will be asked if you want to save the GoogleSheet so you can edit your personal copy. Yes, make a copy. If not already logged in, you will need to login to your Google account.

Once you have saved the document, you can "move" it to a new location in GoogleDrive, so you can find it again later. And you will have full permission to edit it.
