

**AMENDMENT TO PUBLICATION AGREEMENT**

The Woods Hole Oceanographic Institution and the Marine Biological Laboratory encourage authors to consider using this amendment to specify the rights that are retained by the author[s] when copyright is transferred to a journal.

1. This Amendment hereby modifies the attached Publication Agreement concerning the following Article:

\_\_\_\_\_  
(Manuscript title)

\_\_\_\_\_  
(Journal name)

2. The parties to the Publication Agreement and to this Amendment are:

\_\_\_\_\_, (Corresponding author),  
\_\_\_\_\_,  
\_\_\_\_\_,  
\_\_\_\_\_

(individually, or if more than one author, collectively, the Author), and

\_\_\_\_\_, (the Publisher).

3. The parties agree that wherever there is any conflict between this Amendment and the Publication Agreement, the provisions of this Amendment are paramount and the Publication Agreement shall be construed accordingly.

4. Notwithstanding any terms in the Publication Agreement to the contrary and in addition to the rights retained by Author or licensed by Publisher to Author in the Publication Agreement and any fair use rights of Author, Author and Publisher agree that the Author shall also retain the following rights:

- a. The Author shall, without limitation, have the non-exclusive right to use, reproduce, distribute, create derivative works including update, perform, and display publicly, the Article in electronic, digital or print form in connection with the Author's teaching, conference presentations, lectures, other scholarly works, and for all of Author's academic and professional activities.
- b. Once the Article has been published by Publisher, the Author shall also have all the non-exclusive rights necessary to make, or to authorize others to make, the final published version of the Article available in digital form over the Internet, including but not limited to a website under the control of the Author or the Author's employer or through any digital repository, such as the Woods Hole Open Access Server (WHOAS) or the National Library of Medicine's PubMed Central database.
- c. The Author further retains all non-exclusive rights necessary to grant to the Author's employing institution the non-exclusive right to use,

reproduce, distribute, display, publicly perform, and make copies of the work in electronic, digital or in print form in connection with teaching, digital repositories, conference presentations, lectures, other scholarly works, and all academic and professional activities conducted at the Author's employing institution.

**5. Publisher's Acceptance of this Addendum.** Publisher's acceptance of this Amendment shall be manifested by executing a copy of this Amendment and returning it to the Author. Alternatively, Publisher assents to the terms of this Amendment if Publisher publishes the Article in the journal identified herein or in any other form without execution of this Amendment.

**6. Final Agreement.** This Amendment and the Publication Agreement, taken together, constitute the final agreement between the Author and the Publisher with respect to the publication of the Article and allocation of rights under copyright in the Article. Any modification of or additions to the terms of this Amendment or to the Publication Agreement must be in writing and executed by both Publisher and Author in order to be effective.

**7. NIH Funded Research.** (Please check box to indicate this submission falls under the NIH publishing requirements)

This work is the result of NIH funded research. The Author retains the right to take all steps reasonably necessary to comply with NIH's Revised Policy on Enhancing Public Access to Archived Publications Resulting from NIH-Funded Research. ( <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-08-033.html> )

This includes the right to provide, allow the publisher to provide, or allow the Author's employing Institution to provide an electronic version of the final manuscript of the Article, including all modifications from the peer review process and all graphics and supplemental materials associated with the manuscript to the National Library of Medicine's PubMed Central Database ("PMC) at the time the article is accepted for publication. Also this includes the right to authorize the National Institutes of Health (NIH) to make a copy of the peer-reviewed manuscript of the Article available for public access in PMC in any medium chosen by NIH, no later than 12 months after the official date of publication
